

05 APR 1983

Mr. Donald E. Keith
Division Administrator for Northern Virginia
Virginia Department of Highways & Transportation
P.O. Box 429
Fairfax, Virginia 22030

Dear Mr. Keith:

Based on further conversations held at your office on 29 March 1983, it is our understanding that the Virginia Department of Highways & Transportation could provide engineering support to the Central Intelligence Agency for the design of offsite road improvements providing the Federal Government could provide funding for necessary contractual assistance.

The purpose of this letter is to formally request your assistance in providing the support required to:

1. Provide a supplement to the Agency's Environmental Assessment that will address the environmental issues created by the selected road design.
2. Contract for the design of necessary modifications of Virginia Route 123.
3. Contract for the construction of necessary modifications.
4. Accept the completed project into the Virginia roads system for ongoing operation and maintenance.

It is understood that the Central Intelligence Agency will be responsible for providing funding to the State for each phase of the design and construction effort. Funding available will be limited to the amount specifically appropriated for this purpose by Congress. It will also be the Agency's responsibility to satisfy the requests of the National Capital Planning Commission with respect to road improvements, including submission of road plans for formal review.

OL 2025-83

Mr. Donald E. Keith

A prompt written confirmation of this understanding would be appreciated so that Agency efforts can continue while a more detailed, formal agreement is prepared.

Sincerely,

/s/ Daniel C. King
